WORK EXPERIENCE

opash software

Software Engineer Intern

jan 2024 - july 2024

- As an intern specializing in MERN development, I designed and crafted the user interface for a student dashboard, and contributed to various other projects using React.js, Next.js, Node.js, and MongoDB.
- I demonstrated proficiency in creating web pages that maintained compatibility across different browsers and were responsive in design, utilizing techniques such as Tailwind CSS and CSS3.

EDUCATION

RKDF UNIVERSITY BHOPAL

MCA - Last Sem - 6.03

Aug 2023 - Present

Institute of Management Research & Development, Shahada

BCA - 9.19

Aug 2019 - July 2022

PROJECTS

Portfolio Website

Jan 2022 - Feb 2022

- This is a personal portfolio website built using MERN (MongoDB, Express, React, Node.js) project that focuses on managing client details and associated project information.
- The backend is developed using Node.js, Express, MongoDB, while the frontend is built with React.js, JavaScript, and utilizes both Tailwind CSS and Bootstrap for styling.

Movie and Series

June 2021 - July 2021

- This web application, built with React.js, fetches data from a JSON file using Redux.
- The app provides a user interface for displaying a collection of series and movies.
- It includes various features and functionalities to enhance the user experience.

Tollance University

Jan 2023 - Feb 2023

- This project is a template built using React.js, Tailwind CSS, and JavaScript, providing a responsive and readable design for showcasing housing listings or related content.
- Built using React.js, Tailwind CSS, and JavaScript, this template offers a responsive and readable design for showcasing housing listings or related content.

Music-App

Jan 2024 - Feb 2024

- Developed a music app using React.js, JavaScript, and CSS, featuring a responsive user interface for playing and managing music tracks.
- Enabled users to play, pause, skip to the next track, and go back to the previous track through the app's intuitive interface.

SKILLS

- Proficient in JavaScript and C programming languages.
- Experienced with MongoDB and MySQL databases.
- Skilled in using Rest APIs, Git, GitHub, and Postman tools.
- Familiar with React.js, Node.js, and Express JS frameworks/libraries.
- Knowledgeable in Bootstrap, Tailwind CSS, and CSS3 for styling and layout.
